About Us

A Legacy of Progress

Founded in 1845, Haji Abdullah Alireza & Co. Ltd. (HAACO) holds the distinction of being Saudi Arabia's first registered commercial enterprise, marking the beginning of a legacy that continues today to shape the Kingdom's economic landscape.

Originally established as a trading firm serving pilgrims to the Holy Cities of Makkah and Madinah, HAACO has evolved into one of the Kingdom's most respected and diversified holding companies, with operations spanning maritime and logistics, water and power, energy solutions, automotive services, fueling, travel, and packaging.

With a history rooted in reliability and sustainable growth, HAACO has remained a steadfast pillar of Saudi Arabia's commercial and cultural landscape for over 180 years, honoring its rich heritage while driving its economic development with purpose and vision.

Today, the company's continued success is guided by a commitment to innovation, strategic partnerships, and national development in line with Vision 2030. As we look to the future, HAACO's enduring values and pioneering spirit remain at the heart of everything we do.

Our History

From ambitious beginnings 180 years ago, to today's diversified enterprise at the heart of Saudi Arabia's economic transformation

1845 - 1930s

- The House of Alireza founded in Jeddah by Zainal and Abdullah Alireza and established as the KSA's first commercial enterprise.
- Business focused on importing foodstuffs, textiles, & other goods.
- Expansion of jewelry business with offices in Paris and London.

1940s -1950s

- Installation of Jeddah's first broadcasting station.
- Establishes offices in Riyadh and Dammam.
- Begins operations in Ford dealership, petroleum distribution, telecom contracts, and shipping.
- Awarded 10 year contract to manage and operate Jeddah Islamic Port.

1960s - 1970s

- JV Partnership with Mobil Corp to operate petroleum storage, bunkering and fuel handling facilities on Pacific side of the Panama Canal.
- GENTEC formed as a general contracting entity for telecoms, broadcasting and security projects.

1980s - 1990s

- Apsco expands operations across the Kingdom's airports.
- Establishes Alireza Delta Transport Company operating in the Eastern Region's port.

2000s - 2020s

- Industrial Division established to develop, finance, build, operate, and maintain water and energy projects
- Apsco aviation fueling expands operations in Egypt and Bahrain.
- HAACO entered the ship owning industry by acquiring its first three bulk carrier vessel

Our Mission & Vision

Our Mission

To lead with integrity and excellence across every industry we serve, building on over 180 years of heritage while supporting the Kingdom's transformation through ethical business practices, strategic partnerships, and impactful national contributions.

Our Vision

Driving progress in Saudi Arabia through diversification, innovation, and resilience, honoring our heritage while building opportunities for future generations.

Our Core Values

Integrity

We uphold the highest ethical standards in everything we do—building trust through honesty, accountability, and transparency.

Excellence

We are committed to delivering outstanding quality, performance, and service across every aspect of our business.

Agility

We embrace change and act with speed, adaptability, and purpose in a rapidly evolving world.

Respect

We foster a culture of dignity, inclusion, and collaboration, building strong relationships through mutual understanding and shared purpose.

Reliability

We honor our commitments with consistency and dependability, earning confidence through our actions, not just our words.

Apsco

Energy That Moves You

A cornerstone of HAACO's Energy portfolio, Apsco is a leading Saudi energy solutions provider, recognized for its expertise in aviation fueling, premium lubricants, and sustainable energy initiatives.

With a heritage spanning over 60 years and a strategic alliance with ExxonMobil, Apsco delivers world-class products and services across multiple national and international markets.

Operating one of the largest jet fuel bunkering networks in the Middle East, Apsco supplies aviation fuel across Saudi Arabia, Egypt, and Bahrain, with facilities at 40 airports and airstrips in the Kingdom, while its lubricants division supplies over 150,000 metric tons of high-quality oils and greases annually to 19 countries across the GCC, MENA, Asia, and Africa.

Core Business Areas

Aviation Fueling

- Saudi Arabia's first and largest private aviation fuel supplier.
- The first company globally to have all its airports certified to JIG standards.
- Provides technical support to other fuelling companies based on the latest standards of JIG and IATA.
- In 2024, launched operations in Manama Airport, becoming the second aircraft fueling service provider in Bahrain.
- Apsco Energy Egypt launched in 2022 through the acquisition of BP's aviation fuel business.
- Partnership with Menzies Aviation supports global-standard fueling and ground services to its network of international airport customers.

Key Clients Include:

وزارة الدفاع MINISTRY OF DEFENSE

أرامكو السعودية saudi aramco

Saudia

طيران أديل flyadeal

KLM Royal Dutch Airlines

الإتحاد ETIHAD

TURKISH AIRLINES

الجزيرة Jazeera

Core Business Areas

Lubricants & Motor Oils

- Produced in partnership with ExxonMobil.
- Serve a range of sectors and clients, including global vehicle and equipment manufacturers.
- Blending plant in Jeddah produces lubricants made from virgin base oils and OEM-approved additives.
- Extensive warehousing in Jeddah and Dammam.

Capabilities:

- Blending Plant: Average 600 KBbl per year
- Grease & Coolant: Average 70 KBbl per year
- Warehousing: 12,000 pallets

Apsco International

- Strong international presence through exports, private-label manufacturing, and strategic branding.
- Lubricants available across GCC, Asia, MENA, and Africa.

Major Clients Include:

Porsche, Bentley, Mercedes-Benz, Mazda, Toyota, CAT, Aramco, GWM

Mobil

Our long-standing partnership with Mobil for more than 60 years has allowed us to provide our customers with the exceptional products they need to keep their machinery and engines in the best condition.

Core Business Areas

Retail & Service Operations

Mobil Service Centers:

- Branded service centers across Saudi Arabia.
- Mobil-standard oil change and vehicle care services.
- Staff trained through ExxonMobil programs.

Service Stations:

- Stations in Jeddah & Riyadh and expanding nationwide.
- High-quality fuels & EV charging infrastructure.
- Car wash services & retail amenities.

Sustainable Energy Solutions

- Energy Efficiency Audits & Benchmarking
- Renewable Energy Projects
- Sustainable Aviation Fuel (SAF) Solutions
- Green Building Certification (LEED)
- EV Mobility & Charging Infrastructure
- Carbon Footprint Tracking & ACA Accreditation Support

Apsco's unwavering focus on quality, innovation, and environmental responsibility makes it a vital contributor to Saudi Arabia's evolving energy landscape and a key player in achieving the objectives of Vision 2030.

MARITIME

At the heart of international trade

Alireza Maritime

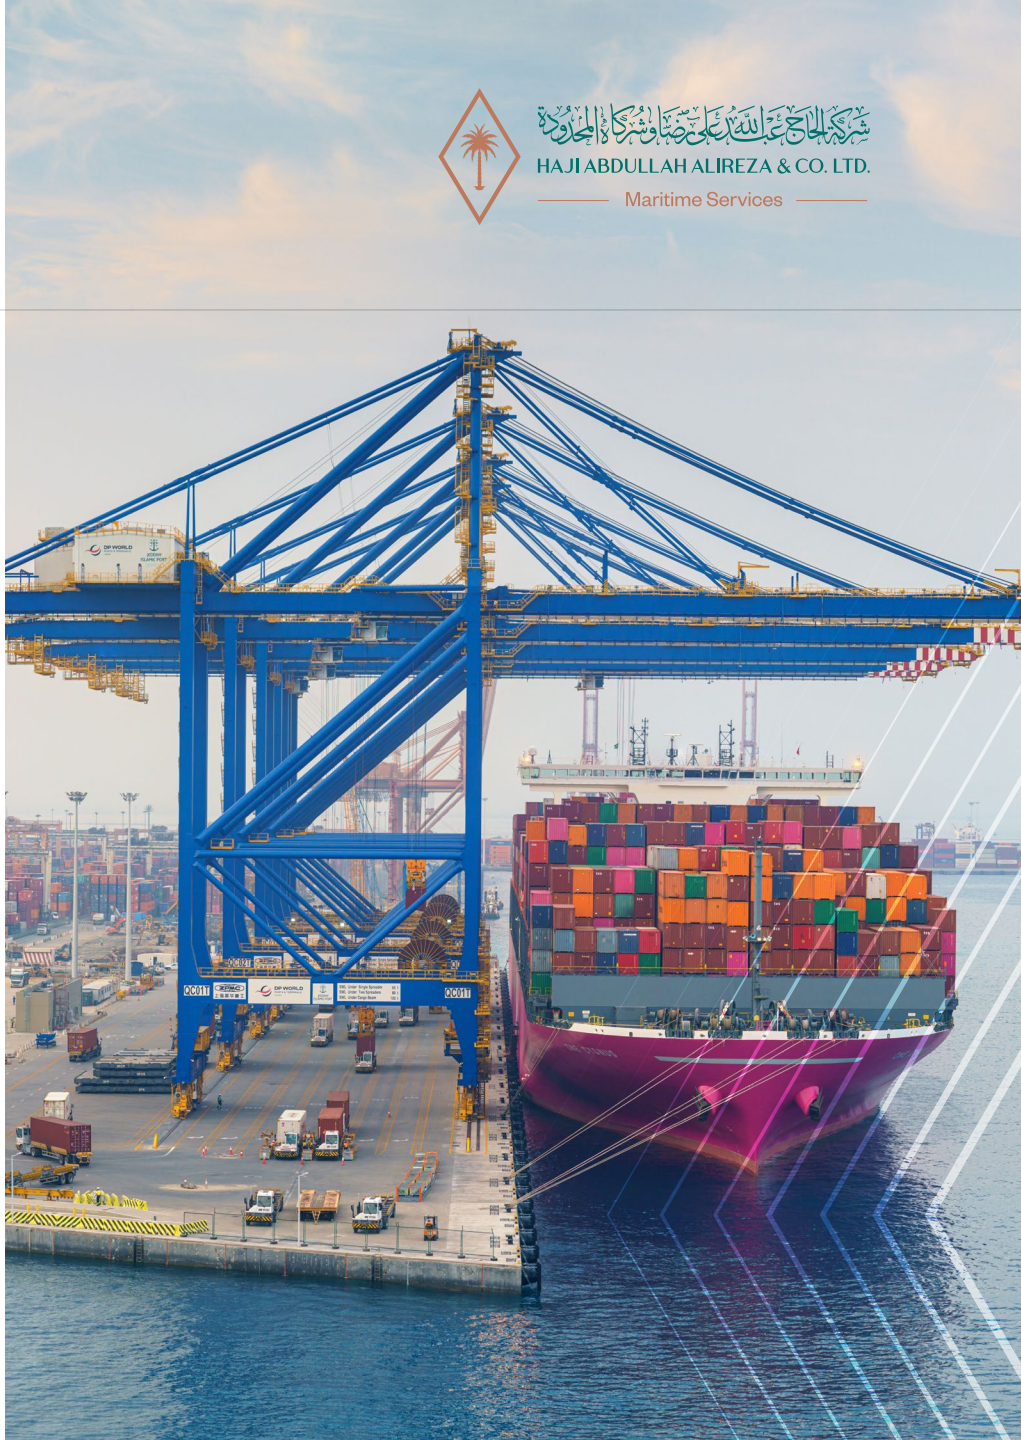

More Than 100 Years of Maritime Expertise

The Maritime Industry is a key enabler of Saudi Arabia's economic diversification and, as the Kingdom seeks to become an international logistics hub under Vision 2030, its ports and shipping infrastructure are undergoing rapid transformation. HAACO plays a vital role in this transformation through Alireza Maritime, one of the most established and respected names in Saudi shipping.

Headquartered in Jeddah, Alireza Maritime manages operations for shipping lines in major ports across the western, eastern, and central regions, providing a comprehensive range of seamless end-to-end maritime logistics solutions across the Kingdom.

Market Strength

- 50%+ market share for vehicle import handling in Saudi Arabia
- Serving global carriers, regional feeders, humanitarian missions, and project logistics.

Alireza Maritime

Core Capabilities

- Vessel handling and husbanding (container ships, RORO, tankers, breakbulk, cruise, and project cargo)
- Import/export facilitation and customs clearance
- Port-to-inland cargo transport via dedicated fleet
- Maritime logistics consultancy and coordination
- Management and operation of owned ships (bulk carriers)
- ISO 9001:2015 certified operations
- Representation of international shipping lines and NVOCCs

Port Coverage

Western Region:
Jeddah, Yanbu, Rabigh, Duba (Neom), Jizan

Eastern Region:
Dammam, Ras Tanura, Jubail, Ras Mishab, Rahima, Ras Al Khafji

Ship Ownership

Expanding Maritime Horizons

In 2024, HAACO Development Company strengthened its direct role in international maritime operations through a strategic joint venture with Sea Tribute Ship Management, a reputable Greek company based in Piraeus, Greece—one of the world's leading maritime hubs.

Sea Tribute brings extensive expertise in ship management, technical operations, and maritime compliance, managing a diverse portfolio of dry bulk and general cargo vessels across global routes.

Through this partnership, HAACO acquired its first six dry bulk carriers, marking the beginning of a planned global fleet expansion

This strategic investment not only reinforces HAACO's long-standing involvement in shipping but also enhances its operational efficiency, international reach, and market competitiveness in both Saudi Arabia and the global maritime sector.

TRANSPORT & LOGISTICS

A vital pillar of economic transformation as the Kingdom continues its journey toward Vision 2030.

Alireza Delta Transport Co.

Driving Logistics Forward Since 1978

Strategically positioned at the crossroads of three continents, Saudi Arabia continues to make massive investment in its ports, railways, roads, and logistics zones, driving economic growth and reinforcing the Kingdom's position as a global logistics hub.

Established in 1978, ADTC is a trusted name in Saudi Arabia's world-class logistics and transportation landscape. With over 150,000 square meters of terminal space, and a fleet of more than 170 modern transport vehicles, ADTC offers comprehensive integrated logistics solutions, covering land transport, terminal and cargo operations, and serving a diverse range of local and international clients.

Core Services

- Energy Logistics & Transportation
- Inland Transportation & Haulage
- Port & Terminal Management
- Container Handling & Freight
- Cargo Stripping & Stuffing
- Container Maintenance & Repair
- Customs Clearance
- Logistics Consultancy & Support

Alireza Delta Transport Co.

Strategic Infrastructure

Dammam & Jeddah Terminals

Our terminals span over 150,000 m² and are strategically located just minutes from the Kingdom's key ports. Facilities include:

- Heavy lifting equipment: reach stackers, top loaders and forklifts
- Flatbed and low-bed trailers
- Curtain side trailers
- State-of-the-art, secure, asphalted, and fully fenced yards
- In-house maintenance and repair workshops
- Specialized cargo handling and container stacking capabilities

Energy Transport Division

Operating across Jeddah, Riyad, Dammam, Madinah, and Abha, the division supports aviation fuel, base oil, gasoline and diesel logistics:

- A dedicated fleet of 42,000-liter aluminum tankers
- A dedicated fleet of 36,000-liter steel tankers
- Specialized trucks and dispatch centers
- Skilled personnel and dedicated workshops in all four locations

Alireza Global Logistics (AGL)

Integrated Supply Chain Excellence

Alireza Global Logistics (AGL) provides a comprehensive range of world-class logistics solutions to meet the complex demands of its local, regional and global clients. Working with a network of trusted strategic partners, the company specializes in delivering one-stop supply chain solutions, from freight and customs, to transportation and warehousing, with a keen focus on customer service excellence. Key areas of expertise include:

Warehouse & Distribution Services

- Secure storage solutions to safeguard inventory.
- Seamless distribution management to ensure accurate and timely deliveries.
- Expert organization of inventory to maintain order and accessibility

Transport Services

- Extensive coverage from local deliveries to intercity shipments.
- Precision logistics planning to meet specific transportation needs.
- Commitment to timeliness, ensuring goods arrive on schedule.

Sea Freight Services

- Comprehensive handling of containerized and bulk shipments.
- Strategic route management to minimize delays and maximize efficiency.
- Guaranteed international delivery of goods.

Alireza Global Logistics (AGL)

AGL ALIREZA GLOBAL LOGISTICS

Air Freight Services
- Fast transport options to significantly reduce delivery times.
- Secure handling and monitoring of air cargo.
- Global connectivity to major international markets.

Customs Brokerage Services
- Expert management of documentation and regulatory requirements.
- Smooth customs clearance processes designed to avoid delays.
- Comprehensive support to ensure compliance with all trade regulation.

Project Cargo Services
- Detailed coordination and logistics planning for large-scale projects.
- Safe handling and transportation of oversized and heavy cargo.
- Timely and secure delivery, ensuring project timelines are met.

Break-bulk Services
- Specialized handling and transportation strategies for bulk goods.
- Risk management to prevent damage and ensure safe delivery.
- Efficient management of international shipping requirements.

Car-carrier Services
- Tailored solutions for all vehicle types.
- Reliable delivery schedules.
- Comprehensive handling from pickup to delivery.

TECHNOLOGY

Driving the Kingdom's digital transformation

GENTEC

GENTEC

Powering the Kingdom's Technological Future

GENTEC is one of Saudi Arabia's most respected technology and engineering companies. Established in 1970, the company has grown into a leading EPC contractor and systems integrator, delivering end-to-end technology-driven solutions to both public and private sector clients across the Kingdom.

With over five decades' experience, GENTEC has successfully executed complex, large-scale projects in telecommunications, broadcasting, electronics, critical power and infrastructure, cementing its reputation for technical excellence and dependable delivery.

Core Areas of Expertise

- Telecommunications
- Radio Solutions
- Information & Communication Technology (ICT)
- Security Systems
- Audio Visual (AV) Systems
- Infrastructure Cables & Passive Materials
- Critical Power Solutions
- Telecom Cables & Connectivity
- Operation & Maintenance

KAIA
Potable Water Transmission Pipeline

Design, Procurement, Installation, T&C of 2 x Pipelines, and Wireless Communications System.

PACKAGING

Saudi Can Co.

A Leader in Innovative Packaging Solutions

Founded in 1979, Saudi Can Company is a joint venture between Haji Abdullah Alireza & Co. and Abdullah Hashim Company Ltd. Recognized as one of the region's most advanced packaging manufacturers, it also operates Saudi Can Closures Co. (SCCL) in partnership with Bericap Holding of Germany.

With state-of-the-art facilities and decades of expertise, Saudi Can has evolved from producing tin cans for the lubricant industry to a fully diversified packaging provider, supplying metal and plastic packaging to leading brands across domestic and international markets.

Product Range

Metal Packaging
Cans for lubricants, aerosols, and food products.

Plastic Packaging
Bottles and containers for household, industrial, and personal care applications.

Specialty Solutions
Packaging for agrochemicals, juices, and cooking oils.

Advanced Containers
Multilayer co-extruded designs for enhanced durability, safety, and product protection.

TRAVEL & TOURISM

A proud legacy of over 40 years, delivering seamless, high-quality travel solutions.

Alireza Travel

علي رضا للسفر
AlirezaTravel

Delivering Excellence in Every Journey

Strategically headquartered in Jeddah, with a branch in Al Khobar, the company is one of the Kingdom's most trusted and service-oriented travel providers, serving both corporate, group and individual clients.

From executive travel to exclusive escapes, Alireza Travel ensures every journey is smooth, secure, and precisely tailored to our client needs.

Services Include:

- Airline ticketing & reservations
- Private jet & yacht bookings
- Hotel, resort & apartment bookings
- Visa processing & travel insurance
- Corporate & group travel.
- Holiday packages, tours
- Event coordination
- Airport transfers
- Meet & greet services

IATA accredited and ISO 9001 certified.

UTILITIES & INFRASTRUCTURE

Infrastructure development is central to the Kingdom's economic resilience, urban growth, and long-term sustainability.

HAACO Development Co.

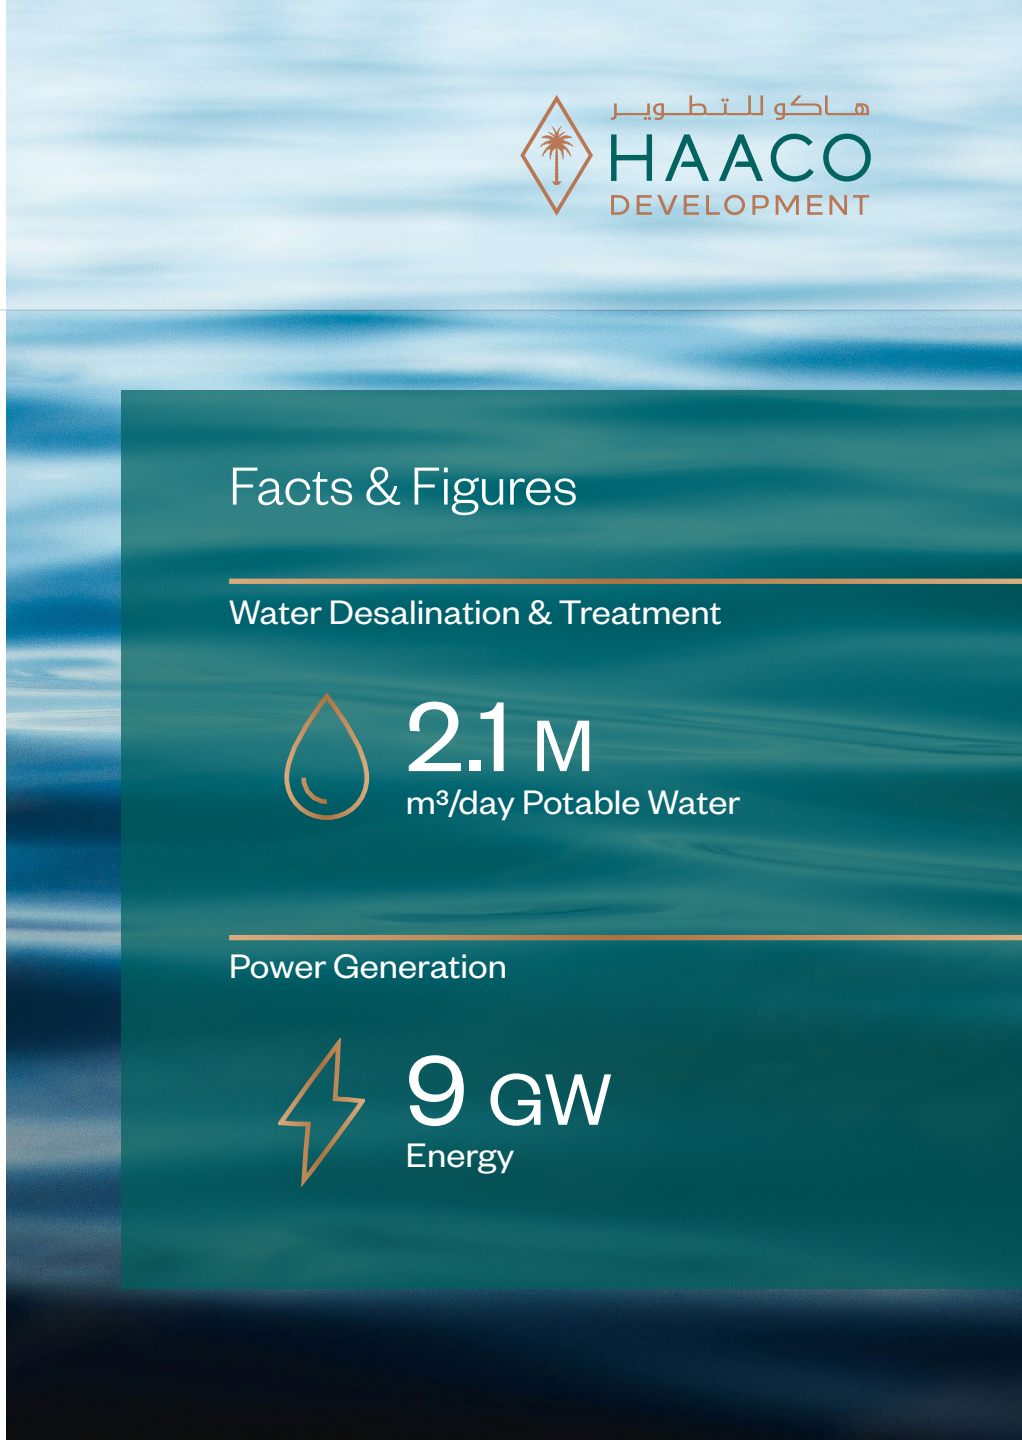

Powering Progress Through Strategic Infrastructure Investment

HAACO Development Co. was established to lead and consolidate the Group's growing investments in large-scale utility and infrastructure projects.

As the Kingdom continues its ambitious development journey under Vision 2030, HAACO Development Co. plays a vital role in expanding critical infrastructure for water and power, aligning private sector innovation with national priorities.

HAACO Development Co. partners with leading global and regional players to deliver transformational projects through Public-Private Partnership (PPP) models, including Private Finance Initiatives (PFI) and Build-Own-Operate (BOO) structures.

These collaborative approaches unlock private sector expertise and investment to deliver world-class infrastructure solutions for Saudi Arabia's growing population and industrial and commercial communities.
